

# Percent of People without Disabilities, Not in Labor Force

## Summary

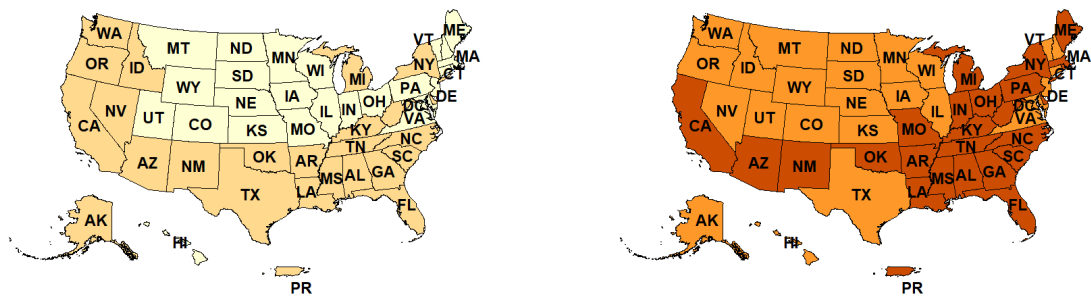

According to the U.S. Census, people who are not in labor force includes all people 16 years old and over who have no job and who are not looking for one. They are not classified as members of the labor force (those who are employed or unemployed). People not in the labor force include students, housewives, retired workers, seasonal workers interviewed in an off season who were not looking for work, institutionalized people, and people doing only incidental unpaid family work (less than 15 hours/week). The lowest state or territory was Minnesota (MN) at 13.3%. The highest state or territory was Puerto Rico (PR) at 35.8%. Detailed information is available below in the map and table below.
