Percent of People without Disabilities, Commute by Public Transit

Summary

Percent of People without Disabilities, Commute by Public Transit

According to the U.S. Census Bureau, commuting by public transportation includes people who take the bus, subway, elevated train, long distance train, commuter rail, light rail street car, trolley or ferry boat to work. Darker colored states indicate a greater percent of people using public transit to go to work. The lowest state or territory was Arkansas (AR) at 0.3%. The highest state or territory was District of Columbia (DC) at 34.8%. Detailed information is available below in the map and table below.
